

Community Record Setup (Charting Dashboard)

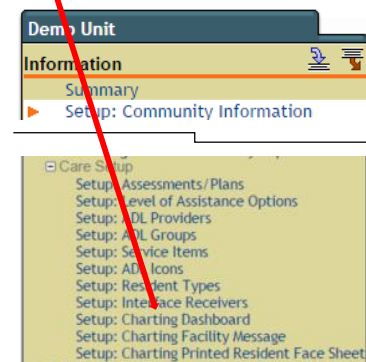

The Charting Dashboard allows for several customizations at set up for each community.

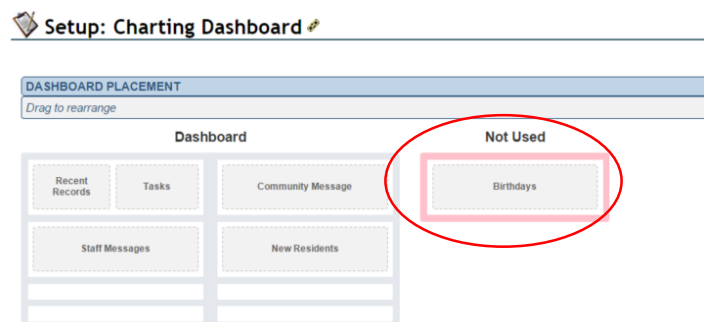

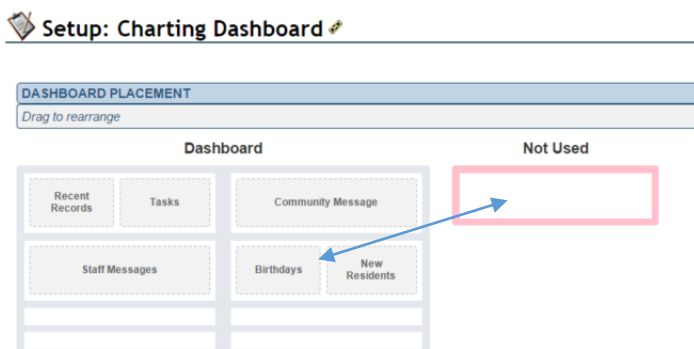

Step 1. Go to Community module then Community Record

Step 2. On the community navigation select Charting Dashboard

Step 3. Drag and drop any modules within the Dashboard for the desired layout. If there is a module that is not desired, drag it to the not used box. The Dashboard will automatically resize when a module is not used.

Step 4. Complete the dashboard set up as illustrated below:
